

At **ACS** – Global Transport and Logistics Africa, we provide and manage supply chain solutions for thousands of companies every day – from the small family run business to the large global corporation.

Our reach is global, yet our presence is local and close to our customers. 2,000 employees in more than 15 countries work passionately to deliver great customer experiences and high-quality services.

We believe world trade drives world prosperity, but seamless trade is not a given.

Our purpose

Keeping supply chains flowing in a world of change

We acknowledge our role as part of the critical infrastructure driving world trade and as a key enabler for the sustainable growth of all our stakeholders, including customers, shareholders and societies at large.

We conduct our business with integrity, respecting different cultures and the dignity and rights of individuals. We believe in **contributing our fair share** to the societies and local communities in which we operate **while reducing the environmental footprint from our operations**.

We take advantage of technology and digitalization. Our workflows are highly digitalized and our IT systems are integrated with both customers and suppliers. In a world of change, this enables us to **continuously optimize our customers' supply chains** and supports efficient workflows for our employees.

Our vision

Sustainable growth

We help our customers grow by keeping their supply chains flowing. We create efficient solutions for all businesses with focus on reliability, environmental impact and cost – regardless of industry and size.

We provide equal growth opportunities for all employees. People drive the success of our company, so the more we provide healthy and safe workplaces – as well as strong growth opportunities – the greater is our chance of achieving our ambitious growth targets.

We help societies grow. We conduct our business with integrity, respecting different cultures and the dignity and rights of individuals in all countries.

We grow shareholder value. We want to continue to be a leading global supplier, fulfilling the customer needs for transport and logistics services. We target extensive growth - **organic and through acquisitions** - and aim to be among the most profitable in our industry.

Our mission

Operational excellence

World trade drives world prosperity, but seamless trade is not a given.

Through our persistent focus on transparency, productivity and scalability, **we create more efficient global trade flows for all business.**

We design our infrastructure – physical and digital – to support high service levels and efficient workflows.

Operational excellence goes **hand in hand with sustainability**. A well-planned supply chain is also a greener supply chain.

We are forwarders. Doers. People who get things done. We take ownership and show initiative. We always seek to find the better and rational solutions to the challenges we face.

Why ACS should be your transport and logistics company of choice

As a global freight forwarder, ACS provides and manages supply chain solutions for thousands of companies every day. Whether you are a small family-run businesses or large global corporation we focus on keeping your supply chains flowing through operational excellence and sustainable growth. This is at the core of our **purpose, vision and mission**.

Our skilled people with industry know-how, modern warehouses, strong carrier relationships and a global network across over 15 countries position us to better serve your needs. We help you achieve your business objectives through a unique blend of optimized and flexible solutions, combined with visibility tools, **secure IT infrastructure** and **sustainability**.

Optimization

ACS provide **optimized transportation and logistics solutions** designed by our supply chain experts, ensuring the right balance between costs, CO₂ compensation, service levels, lead times and risk. Our global network and strong partnerships provide you with a carrier mix tailored to your needs. We ensure optimization across all **modes of transport** through the insights of our local experts. In our **Customer Success Programme** we are mapping how customers experience our services to help us identify our strengths as well as areas for improvement.

Security and visibility

ACS provides secure IT infrastructure protected by cyber security measures and strong digital solutions and interfaces across all transport modes. We provide real-time end-to-end visibility and control at shipment and purchase order level enabled by our track and trace and POMS (**Purchase Order Management Systems**). These dynamic and flexible solutions enable customers to manage complex logistics solutions, increase supply chain efficiency and better manage inventory and costs. ACS's dedicated teams are always ready to support you and your business with additional security.

Flexibility

ACS has become experts at adapting to changing market conditions and providing flexible solutions to meet your business needs. Our business model is asset light. This means we can quickly scale activities to match changes in market demand. We can also pick the best suppliers for any service depending on factors like **reliability**, available capacity, transit time, sustainability factors and price.

Sustainability

As a leader in transport and logistics, ACS has an important role to play in helping the industry transition to greener more environmentally friendly practices. We provide sustainable and efficient transport solutions through better planning, new technologies and innovative solutions. We work with sustainability across all areas of our business, from air, sea and road freight to contract logistics.

In order to **reduce your supply chain's carbon footprint**, ACS also provides consolidation, shift in transportation modes, load optimization, container fill rates, and a global transportation network. With a team of industry experts, we are ready to design sustainable solutions that help you achieve a greener supply chain.
